EDUCATION

Vellore Institute of Technology, Vellore
Integrated M.Tech in Software Engineering

CGPA - 7.90
August 2023- July 2028

TECHNICAL SKILLS

- **Languages:** Java, Python, HTML, CSS, JavaScript
- **Frameworks:** Spring Boot, React Js
- **Libraries:** Numpy, Pandas, Matplotlib
- **Development Tools:** Git, Azure, IntelliJ, Visual Studio, AWS Cloud Platform, JIRA, Postman
- **Subject:** Data Structure and Algorithm, Object-Oriented Programming(OOPS), Software Development LifeCycle(SDLC), Agile Methodology, Database Management System, System Design, Operating System

PROJECTS

InvestTeen AI — Financial Education & Investment Simulator | React, Spring-Boot , LLM/RAG

- Developed a Spring Boot-based application for teenagers covering stocks, ETFs, mutual funds, SIPs, and IPOs.
- Implemented AI-powered chatbot assistance using LLM/RAG to provide simple, educational answers to investment-related queries.
- Built a virtual investment simulator with portfolio tracking, asset comparison, risk analysis, and performance visualization.

Anaemia Screening & Referral System for Rural Healthcare | Spring-Boot, Python, CNN

- Developed a web-based AI screening platform to assist rural healthcare workers in identifying potential anemia risk through patient image analysis.
- Implemented CNN-based image classification with OpenCV and TensorFlow/Keras for image preprocessing and AI-powered screening.
- Built a Spring Boot REST backend for patient management, image processing requests, screening results, and referral workflows.

CERTIFICATES

- **Internship Certificate 7 Feb 2025- 7 April 2025**
Experienced real-life project in VIT-StartUP SyncHubb as Frontend Developer intern
- **Google Cloud Certified Cloud Digital Leadership**
